Thank you for your interest in our work!

Founded in 2008 by artist Bari Ziperstein, BZIPPY is a ceramic furniture and housewares company producing open edition wares. Inspired by architecture and industrial design, BZIPPY builds on a taxonomy of slab-based and extruded forms to deliver high-quality, rigorously handbuilt, functional ceramic objects. BZIPPY furniture and housewares are included in multiple high-end showrooms, lifestyle stores, and its clients include some of the most prominent interior designers working today. Their work can be found in design-forward private homes and in public venues around the world as well as on the pages of taste-making trade publications. The studio also produces Collectible Design works and Ziperstein's fine art practice.

A few notes about our products...

- BZIPPY ceramic goods are one-of-a-kind stoneware / earthenware editions including furniture, planters and home accessories.
- Each piece is designed, hand-built, glazed, and fired in our Los Angeles facility by a team of skilled ceramicists and artists.
- Variations occur throughout the hand made process; final products may vary slightly from the listed dimensions or possess innate morphs. The tension between uniformity and character is inherent to our fabrication process.
- Should you or your client require very precise dimensions or uniform structures, please communicate with our sales representatives about specifications.
- All linesheet products may be customized to specific dimensions – please contact the studio to request modifications.
- The studio also works on a custom project basis on products including plinths, modular furniture, wall vessels, tiles, and lamp bases – please contact the studio for more information regarding our custom project process.
- The studio offers local pickup from our studio, white glove delivery in the greater Los Angeles area, domestic shipping via UPS or freight, and international shipping via DHL or freight – we follow rigorous packing standards to maintain safe arrival.
- We appreciate your business and strive to provide an excellent experience – please don't hesitate to reach out with any questions or concerns.

Finishes/Glazes

Glazes are indoor / outdoor safe. Note for outdoor use: in colder climates, we advise bringing products indoors in the Winter. Up to 5 test tiles can be provided upon request, free of charge, but we ask that clients pay for shipping. Full glaze kits are available for purchase on our website.

A note about our glaze application: small works are dipped in glaze resulting in a smooth glazed surface. Large scale pieces, such as furniture, require a brushed glaze application, at times resulting in a more varied surface application. All test tiles below are dipped and may not capture the nuances of each glaze. If ordering larger works, we recommend taking a look at images of completed units for larger surface application examples on our website. Please request a glaze catalog for expanded glaze profiles.

Every glaze has its own finish quality. Please reference the following legend to indicate the finish quality of each glaze. Finish qualities are innate and cannot be customized.

- G = glossy
- S = satin
- M = matte

Please note that glazes are unique and their finishes vary due to the firing process and handmade quality. Every glaze has a unique profile and range of possible variation, as indicated by the following scale:

1. This glaze is stable and rarely varies beyond its test tile.
2. This glaze is dimensional and will show tonal variation upon firing.
3. This glaze is atmospheric and varies significantly upon firing (such as crawling).

Lead Time

Please allow our typical 10–12 week turnaround for delivery based on inventory. Items that are made to order are placed on our production schedule after an invoice is paid in full. These items are built by hand, bisque fired, glazed, and then glaze fired. Before packing, this process typically takes 8–12 weeks.

Our estimates are based on perfect studio and kiln conditions and are subject to change should an unforeseeable circumstance arise.

All orders are assigned an estimated ship date upon receiving payment, and are updated throughout the production process.

Product Information

BZIPPY clay goods are one-of-a-kind stoneware / earthenware editions with variations in glazes depending on the high fire process. Please note that works are unique and not exactly the same due to the firing process and handmade quality. Works are fragile – please handle with care.

Variations occur throughout the hand made process; final products may vary slightly from the listed dimensions or possess innate morphs. The tension between uniformity and character is inherent to our fabrication process.

Our works are indoor and outdoor. Note for outdoor use: for outdoor use in colder climates, we advise to bring works indoors during the winter.

Custom Projects

BZIPPY can accommodate a wide range of custom projects. The studio is happy to work with you on your custom project needs or estimates via email. Past custom projects include: custom lamp bases, custom tiles, custom painted vessels, custom shaped furniture.

Custom projects are assessed individually based on the project needs in regard to quantity, timeline and the studios capacity. Once we evaluate our studio capabilities in relation to your project, we will contact you with a proposed budget and timeline.

Should you or your client require very precise dimensions or uniform structures, please communicate with our sales representatives about specifications as all linesheet products may be customized to specific dimensions – please contact the studio to request modifications

Inventory & Ready to Ship

To see what we currently have in stock, please view the Ready to Ship section on our website. We also invite you to reach out to the studio to schedule a facetime call or visit our showroom in person (by appointment only).

We understand you may have an emergency and need a piece as soon as possible. While we cannot rush the production process, we keep many bisque items in stock to glaze on demand. Please call us or order directly from the Ready to Ship section. Ready to Ship items typically have a 2 day handling time. Works that are unglazed (in raw terracotta, RAW TC) can be glazed on demand within a week turnaround (given ideal kiln conditions).

We also encourage you to check the Ready to Ship section of our website to purchase items that are already in stock.
